This item is printed on demand - Print on Demand Neuware - Essay from the year 2015 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, grade: 100%, University of Technology, Sydney, language: English, abstract: The financial crisis of 2008 stopped the deregulation and expansion phase that dominated from the 1990s onwards in Europe's banking industry. Over the last years significantly changes in the regulatory framework of banking have been made worldwide with the new rules of Basel III, CRD IV, Dodd-Frank and Solvency I to minimize the effect of future crises and protect consumers. Banks worldwide were affected by the increase in regulations, leading to a transformation of the banking industry. Instead of focusing on innovation banks spend large amounts on compliance, reporting and supervisory issues. In 2014 Deutsche Bank, Germans leading bank, spend an additional EUR1.3 billion on new regulatory requirements. Therefore, the degree of regulations in the future will decide whether banks can transform their business successfully, being able to add value to customers and compete with new competitors. This essay deals with the transformation process of the German banking industry to 2030. The...
